The course exposes students to the reality of a unique multiracial, multicultural and multi-religious society in Malaysia within its sociopolitical, socioeconomic and sociocultural settings.

Students are required to embark upon selected community engagement projects which they PLAN, PREPARE, PERFORM, PONDER and PUBLISH in their ePortfolios.

The ultimate aim of the project is to enhance leadership skills, autonomy and responsibility (PO8) as well as to enliven the spirit of patriotism and nationalism among the students.

# Conclusion

Students acquire a set of skills at the end of the course related to leadership, autonomy and responsibility linked to the students' field of study.

Students have opportunity to showcase their work to their peers, lecturer and the public.

The community benefits abundantly from active engagement and exposure through project based learning initiatives.

Lecturers able to easily provide immediate and real time feedback to the students' work-in-progress as their milestone progress.

Enhancing student-academia-community active participation and dynamic networking.

# Future Directions

Preparing a dynamic database of ePortfolio (individual or group) that can be easily accessed by the public.

Screening potential projects that could bring about high impact values to the students, academia and community.

Establishing personalised individual and group ePortfolio linked to industries and agencies' databases.

Engagement with related industries and agencies to providing students with practical insights of community development processes.

Linking nationhood project ePortfolio to other HIEPs so as to optimize materials produced by students in different ways such as Intensive Academic Writing.
